Voting System - STV

- STV – single transferrable vote
- Voters can vote for more than one candidate
- Candidates with the lowest vote each round is excluded
- Candidates are elected when they reach the quota
 - Half the total votes cast + 1
 - Always based on the votes being counted
- If a voter doesn't vote for other candidates, the total vote count drops, as does the quota
- This is why the quota drops as we go through each round of votes
